Hello, Helicopter!

OSI

Well at least this time you were right and you had the good sense to give up yeah when others there might of hung in so just nobody touch me I know what I'm doing. Can I destroy that for you ma'am? Can I destroy that for you, mister? It looks good on you it looks good on you but these things look better broken. Hello, Helicopter! Well I hope this time we were right 'cause it looks a little worse every day there's another one flying tonight and I hope it don't make it I know what we're doing.
Can I destroy that for you ma'am? Can I destroy that for you, mister? It looks good on you it looks good on you but these things look better broken. Hello Helicopter!
