

# Harmony

## Bob Hope, Bing Crosby

Boy let's sing this sucka  
You wanna be alone  
A joy to see you  
I'm so glad I'm here  
I come as a true friend  
So feel comfortable relax your fears  
You've got no one  
And you know I've got nobody too  
Never been so much in tune  
With anyone in my life too  
We just took our time  
To settle and unwind  
We innocently vibed  
Our hearts intensified, until  
Silently, soulfully  
You've become a part of me  
Joyfully, melodically  
You and me in harmony  
Did not expect, no  
To get a lover from a real friend  
You are so warm to me, when I'm around  
You won't melt like margarine  
Oh girl you thrill me  
Oh, with your world please feel me  
Oh, lady you excited me  
Oh, won't you please invite me  
We just took our time  
To settle and unwind  
We innocently vibed  
Our hearts intensified  
Silently, soulfully  
You've become a part of me  
Joyfully, melodically  
You and me in harmony  
Silently, soulfully  
You've become a part of me  
Joyfully, melodically  
You and me in harmony  
You sang, a melody

And naturally I ring, a harmony  
'Cause lady I feel the real thang  
    Can we be the main thang  
Honey I wanna be your one man band  
Your piano man, may I tinkle your grand  
    I tinkle you  
    Silently, soulfully  
You've become a part of me  
    Joyfully, melodically  
    You and me in harmony  
    Silently, soulfully  
    You creep into my life  
    And now you  
    Become a part of me baby  
    Silently, soulfully  
You've become a part of me  
    Joyfully, melodically  
    You and me in harmony  
    Silently, soulfully  
You've become a part of me  
    Joyfully, melodically  
    You and me in harmony  
    Silently, joyfully, silently
