

One (your Name)

Swedish House Mafia

(Oh)

I wanna know your name

You just killed me, could you at least do that?

I wanna know your name

Or better yet, stand there

Just do that

[2x]Hey yeah

I wanna know your name...

Know your name...

[2x]

Uh!

Ooh yeah

I wanna know your name

You just killed me, could you at least do that? I wanna know your name

Or better yet, stand there

Just do that

Hey yeah!

Ooh yeah!

I wanna know your name...

Your name...

[2x]Uh
