

# Someone Needs Your Star

Jenny Phillips

Verse 1

Do you know  
That God designed you to glow  
And you hold the Father's promise in your soul  
You may be just a light in the sky  
You are enough to light up the darkest night

Chorus

Someone needs your star  
Someone needs the light you have inside  
So rise up high  
You were meant to shine  
And never hide  
Spread your good works wide and far  
Someone needs your star

Verse 2

Someone needs one simple light  
To bring them hope  
You may feel small  
But you hold more goodness than you know  
Desperately someone's reaching to find  
A beacon of strength  
That they can hold on to tonight

Chorus

Someone needs your star

---
