

Will You (Remix) - Bonus Track

Tribal Theory

It's another day
And I'm on the road
Gonna reach my destination
Gonna play this show
When I get there
There will be pretty girls
Some in desperation
Promise to rock my world
Chorus
Will you be there
When the morning comes
Will you be there
When the day is done
If I wake up, and you're still here
Let's make it last forever girl
You know I will
Would you be there
When the crowd is gone
Would you be there
When the lights go down
If I wake up, and you're still here
Let's make it last forever girl
You know I will
Just another night
And it's time to go
You could meet at my place
And I'll try to take it slow
And when you get here
I'll show you how I do
Gon' and skip the intros
Let's get back to you
Chorus
I can tell that you want it
I can tell that you need it
You don't wanna be lonely
When your body's fiending x2
Chorus x2
