My Defense

Ace Troubleshooter

Don't put all Your hopes in this flesh
This flesh, this mess I am
Empty promises, my steady diet
Won't be quiet till ISpread, so thin devotion
Thus far my notions rant
Don't put all Your hopes
Don't put all Your trust in me
You must not see I can'tSet sights in failing
Target, no control
Grips, relax and lose holdI lose my defense at Your answers
And I come all undone with Your gazeSunless skies, this progress
Thicker, skin can't stretch the length
Wearying with face set against the elements
Is how I spent my strengthSet sights in failing
Target, no control
Grips, relax and lose holdI lose my defense at Your answers
And I come all undone with Your gaze
I lose my defense at Your answers
And my resolve at Your counter waysI can't run forever
With the lions loose on me
Show us no escape
Lest we forget we're dyingFill my mind with Your thoughts
My lungs with Your breath
My mouth with Your words
My soul with Your deathI lose my defense at Your answers
And I come all undone with Your gaze
I lose my defense at Your answers
And my resolve at Your counter ways
