

# If I Love Again

**Tony Bennett**

I often wonder why you came to me  
Brought such a flame to me then let it die And if another love should find my heart  
It will remind my heart of your goodbye  
With every new love you'll come back to me  
In other eyes it's you I'll see If I love again, though it's someone new  
If I love again it will still be you In someone's else's fond embrace  
I'll close my eyes and see your face
