The Great Outdoors

AndyK

You stand out of the crowd
You don't follow the shadows
You've given me solid ground
You rise above
All that surrounds you
And I can't believe what I've foundChorus:And I am falling through the hands of time
As I discover within my mind
That I, if I can leave the hurt behind
Then what's mine is yours
Save the great outdoors for another timeYou've opened my eyes
To a world of intentions
And I've just begin to realise
That so many times
Too many to mention
We let the moment pass us by(Chorus)And through all this confusion
We create our own kind
Don't let destiny leave you behind(Chorus)
