Chemical Energy

Will Sparks

These lights are blinding, getting higher, higher I'm climbing
And I lost my mind, I can't find it, like where'd ya go?
I said lights are blinding, getting higher, I'm still climbing
And I lost my mind, and if somebody finds it, just let me know

And I don't know what he's telling me
And I don't know what he's selling me
But I just know that if that goes up my nose, then I don't wanna ever leave
I'm like what's-his-face, just bumped into what's-his-face
And I'm still off my face, Will Sparks drop that break

Drunk in a club, stumbling sideways, munching my gums
I'm drunk with a buzz, with the amphetamines under my tongue
But I can't see nothing, nada, no lights it's suddenly darker
I hear the bass pumping harder, voices, sounds, jumping, laughter

This room is too packed, and I'm stuck to the wall like Blu-Tack
Then I head to the bar, like a few shots can't kill me, do I look like 2Pac?
I'm like what's-his-face, just bumped into what's-his-face
And I'm still off my face, Chemical Energy drop that break

Really hurt my ears bro

These lights are blinding, getting higher, higher I'm climbing
And I lost my mind, I can't find it, like where'd ya go?
I said these lights are blinding, getting higher, I'm still climbing
And I lost my mind, and if somebody finds it, just let me know

Still drunk in the club, stumbling sideways, munching my gums
Still drunk with a buzz, with the amphetamines under my tongue
On everything under the sun, mouth numb, it's all rubbed on my gums
With a little bit of this and a little bit of that, I'm loving it man

Eyes rolled back to the back of my head, I think I'm in love now
And a couple hours go past, I'm fucked, I don't wanna come down
On and off that Chemical Energy, what's happening?
