

Delirious

ZZ Top

I went down to dock number ten
To see what just came in
They seemed a little bit mysterious
I think I'm gonna get delirious Delirious, delirious I got nailed in a raid last night
They tried to haul me off to jail
Things were looking kind of serious
Till everybody got delirious Delirious, delirious I fell into a hand of cards
Almost blew the night away
Things were looking kind of furious
Till everybody got delirious Delirious, delirious I overloaded and I saw the light
Decadence was on my mind
Everything was getting ridiculous
Till everybody get delirious Delirious, delirious
