Cibo Matto

Don't take it serious, mate
When civilizations take over
They take it up
Take it up
Take it up the earth
Is it motherfuckin' nature?Don't act, you're curious, mate
When alienations take over
They take it up
Take it up
Take it up our time
Sucks hard like a diamondIs the place you really want to live IN as a ghost?
Is the place you really want to love at most?
Do you really want to know???Don't act you're religious, mate
When realizations kick over
They shake it up
Shake it up
Shake it up our hearts
Is it motherfuckin' nature?Don't act, you're curious, mate
When alienations take over
They take it up
Take it up
Take it up our time
Sucks hard like a diamondIs the place you really want to live IN as a ghost?
Is the place you really want to love at most?
Do you really want to know???Yo, I'm a ghost, I'm stuck in this place, don't chase me
I blazed your joint, when you were deep in sleep
Cuz' a room service was dead slow, it got no flow,
You ate an oyster, lobster fresh bread and butter,
you hallucinated,
liberated, fascinated, vibrated, tolerated, the
chocolate melt
Gimme more bass get me outta this placeDon't tell me what the hell Imma ghost
Don't throw the fuckin oyster shell at me
Don't tell me what the hell Imma ghost
Don't throw the fuckin oyster shell at me
