

# Sunken Dreams

## **...And You Will Know Us by the Trail of Dead**

I remember dessert places  
Shadowless and cold  
Where heaven looks down  
On this empty hole  
Levers here to taste the ruins  
Dark and obscene  
But all I want is you  
In my sunken dreams I remember all the places  
I remember when we met  
You alone and graceless  
Me covered in sweat  
We hid among the empty isle  
Shuddered 'neath the scene  
And your lips reached out  
In my sunken dreams
