

Nothing Hurts Now

Magnet

There was a time you made me believe
That I'd receive
Something that would hold
And wouldn't leave me cold And there was a line you made me cross
So the two of us
Would have the strength to bare
The crosses we couldn't share But nothing hurts now that didn't hurt before
So I won't pretend
That it was the end of the world
'Cause nothing hurts now, no There was a time I made you smile
And for a while
I was beautiful to you
I was beautiful like you But these things often pass
And for you, they just wouldn't last
So I was first to know
When you had to go But nothing hurts now that didn't hurt before
So I won't pretend
That it was the end of the world
'Cause nothing hurts now No nothing hurts now that didn't hurt before
So I won't pretend
That it was the end of the world
'Cause nothing hurts now, no nothing hurts now
