Sit Down Beside Me

Patrick Watson

Sit down beside me, and stay awhile
Let our hearts do their part
With wine and words to meet the hours
So the day never starts
Cause that's what I want
That's what we need
Cause that's i want
that's what we needAaaahhhhh lalalalaa aaahhhh lalalalaaSit down beside me and stay awhile
There are shadows
til we're old and grey
til we got nothing, left to say
Cause thats what we are
Thats what we need
cause thats who we are
Thats what we needAaaahhhhh lalalalaa Thats what we need
cause thats who we are
aaahhhh lalalalaa thats what we need
aaahhh lalalala*Musical*How long love ???
And stay awhileSit down beside me, and stay awhile
Til the night runs away
Til the morning rises and we part our ways
Til the end of our days
