

# Breakfast in Bed

Mayer Hawthorne

I still want ya  
Let's run it back one more time  
Let's start with breakfast in bed  
Just me and you and Mr. Sunshine  
Let's order breakfast in bed  
And leave the ordinary world behind Last night night was unexpected  
Nothing we could have predicted would happen for sometime  
You can blame it on the gin and lime  
Let's run it back, rewind Don't be in such a hurry  
You don't have to worry  
'Bout finding all your clothes  
Do Not Disturb sign is hanging from the door So, let's order breakfast in bed  
Just me and you and Mr. Sunshine  
Let's order breakfast in bed  
And leave the ordinary world behind The moment that you wake up  
Don't put on your makeup  
I want you exactly as you are  
I know you've got your battles and your scars  
Let's settle down, recharge Good morning California  
Let the sunshine warm you  
As it sparkles on your skin  
And we'll enjoy each other one more day Let's order breakfast in bed  
Just me and you and Mr. Sunshine  
Let's order breakfast in bed  
And leave the ordinary world behind Champagne, strawberry jam  
I want you to know who I am  
French toast with the most  
I know it's got end, but until then Let's order breakfast in bed  
Just me and you and Mr. Sunshine  
Let's order breakfast in bed  
And leave the ordinary world behind
