

# Beautiful Night

Aaron Neville

I thought it would rain forever  
Caught in the flood  
Reaching for some high ground  
Just before I went down Its hard for me to remember  
Just how I got through  
Now, Im lying on the cool sand  
Happy here where I am I look up the setting sun is bathing  
The world with a healing light  
Little darlin, its gonna be a beautiful night The rolling of distant thunder  
Trouble ahead  
Now, dont you be afraid now  
Well get through it somehow Just look up, the setting sun is bathing  
The world with a healing light  
Little darlin, its gonna be a beautiful night Some like burnin' all night long  
Some like howlin' at the moon  
Some just like to sing along  
'Cause we get lonely, lonely, we get so lonely The stars in the sky above me  
Can make me forget everything but you, baby  
Everything but you, babe I look up, see your shining smile  
And I know itll be all right  
Little darlin, its gonna be a beautiful night Just look up, the setting sun is bathing  
The world with a healing light  
Little darlin, its gonna be a beautiful night Let it rain, let it rain  
Let it rain, let it rain  
Let it rain Its gonna be, gonna be  
Gonna be, gonna be  
Gonna be, gonna be, beautiful night  
Oh, little darlin'
