Strong Enough

Casey Darnell

When the battle knocks me out of breath
When I take all I left to trust you
God help me trust you
When I feel like im finally giving in
I wanna throw the towel in ang give up
Don't let me give up
'Cause you make promises and you keep them
You make promises and I believeYou are stronger, stronger, stronger when i'm weak
Through the valleys and shadows you will carry me
Like a shield and a shelter, your grace is all I ever need
You are strong enough to carry meWhen it seems the mountain is too steep
And I think I am too weak to hold on,
God help me hold on
In the moment of my greatest fear
Remind me you are near,
Jesus, You are greater stillYou are stronger, stronger, stronger when i'm weak
Through the valleys and shadows you will carry me
Like a shield and a shelter, your grace is all I ever need
You are strong enough to carry meIt's out of control and over my head
But you are stronger; you are stronger
Whatever comes on this solid rock I standYOU ARE STRONGER...You make promises and you keep them
You make promises and I believe...You are stronger, stronger, stronger when i'm weak
Through the valleys and shadows you will carry me
Like a shield and a shelter, your grace is all I ever need
You are strong enough to carry meYou are stronger, stronger
You are strong enough to carry me
You are stronger, stronger
You are stronger, stronger
You are strong enough to carry me
