

Dreaming In Red

Dismember

Time is drifting away
To form another day
With our without me
 My faith to be
Tomorrow I will not see
"Be in the deepest of dreams
 or the darkest of deaths
 Nor can either of these
 Truly guarantee my release"
 Staring at these four walls
Remembering what I have achieved
 Enter the tomb of the deceived
 All that were is lost
 Whores of mankind
 Take my fuckin' life
 Alone I'll be
One with the dreams in red
 Flatlined and cold I lay
 Victim of their play
In the shadows of the obscure
 My soul forever never more
