

# Falling In Love With You (Edited Version)

Chic

I think of you, honey, night and day  
And it's your sweet lovin'  
That makes me feel this way  
I'm not ashamed, oh no not me  
Everyone should know  
This is how love should be  
And now that I've given you my heart  
Please be gentle, baby  
When the lovin' starts, cause  
Falling in love with you  
It's all I want to do  
Falling in love with you tonight  
Falling in love with you  
It's all I want do  
Tonight, tonight  
I see your picture  
I hear your name  
I try to hide it, baby  
But the feeling's still the same  
I see your face, such a warm face  
I wanna touch you  
Or just feel your embrace  
And now that I've given you my heart  
Please be gentle, baby  
When the lovin' starts, cause  
Falling in love with you  
It's all I want to do  
Falling in love with you tonight  
Falling in love with you  
It's all I want do  
Tonight, tonight
