

# I Luciferi

## Danzig

Blood drip the veins  
Warm down fallen tresses  
Blood stains the pale cool parched lungs  
Bloody upon the new fallen wisdom  
Bloody collision of mindless faiths  
Warm  
I'm on a nine day fall  
I Luciferi

Warm  
I'm only half-way warm  
I Luciferi  
Blood touch the lips  
Flow down hot like whiskey  
Moon burning red in place of the sun  
Insolent wisdom denied through the aeons  
I Luciferi, resistance of one
