Song For A Sleeping Girl

Devics

I had to take
To see it close
But you're already there
Right next to me
But would you ever fly
Out of a place to be

You breathe in slowly
And let you hold me
I loved you so many times
When you were next to me
You weren't here in the place
I wanted you to see

This is our song
Full of silence
Sleep we knew
She wants nothing
But to wake
To find you there

But once you whisper
We fade in mourning/morning
And we look at her
And her sleeping face
Full of rest in mind
And never know my plea

This is our song
Full of silence
Sleep we knew
She wants nothing
But to wake
And find you there (you there)
