

# Beard for All Seasons

## Gustafer Yellowgold

Iâ€™ve got a beard for all seasons  
I invite you to wear one too  
Weâ€™ll have style, weâ€™ll have reason  
Weâ€™re the envy of every smooth-faced fool

In the summer sun so green and true  
With skies of blue

Bring your hat, or a muffler  
As a cooler breeze remembers me  
Under foot, hear the rustle  
Through a sea of leaves, that lost their green

In the Autumn chill so red and gold  
You stay by me

In the Winter cold weâ€™re toasty warm

It takes time, be patient  
It takes one whole year, for all four beards  
History shows, through the ages  
Assorted beards, hanginâ€™ ear to ear

In the Springtime, weâ€™ll be blossoming  
So fresh and new

Oh, beard. Oh, beard  
La la la la la
