

# Hypnotic Trance

## Nasty Savage

Hello my friend relax comfortably in your seat  
Look into the spiral  
Don't let nothing else distract you  
As you watch you become very sleepily  
Even though you hear every word I say  
You're in a hypnotic trance  
Stay asleep till I ask you to awaken  
Now's the time to experience your unconscious mind  
I control the speed of your heartbeat  
With the movement of my hand  
You're in a hypnotic trance You are not afraid to tell me anything  
Regions of your brain are controlled by my  
You have now escaped from reality  
I control the direction of your emotional reaction You have forgotten everything  
Since your eyes have closed  
Now I know your hidden fantasies  
Things which have never been reveal  
I control the power of your mind  
Make no effort to remember or forget  
Is it just a dream when I snap my finger  
You're in a hypnotic trance
