

About To Make Me Leave Home

Bonnie Raitt

I never thought that a love could be so strong
It could ever make me think about leavin' home
I can't help myself, your lovin' 'bout to drive me mad
But one more night like last night, I might have to pack my bags About to make me leave home boy
About to make me leave home boy Got my mind so [Incomprehensible] left him alive
Gettin' together with this love, boy it just ain't right
I ain't got the strength to turn a good lovin' lose
But I never met a man in my life who could whoop it to me like you do About to make me leave home boy
About to make me leave home boy
About to make me, about to make me leave home boy Got a taste of forbidden fruit that I can't try to lose
What is this good thing you carry around with you
That makes a girl want to act a fool Got that love technique, really, really cracks me up
Seein' you once or twice a week, boy that just ain't enough
Whatcha baby About to make me leave home boy
About to make me leave home boy
About to make me leave home boy About to make me leave home boy, leave home boy
About to make me leave home boy
About to make me leave home boy About to make me leave home boy
About to make me leave home boy
About to make me leave home boy
About to make me leave home boy
About to make me leave home boy
