Enchantment

Paradise Lost

Like a fever, fever - inside of me

Like a fever, fever - inside of meStand fast, faithful one See the moon and not the sun but I... All I need is a simple reminderBreakdown frail affairs Turn from the elusive stares but I... All I need is a simple reminderGuilt is feeding, feeding, inside I'm coldIn depth grasp the chains Struggle as the waters gain but I... All I need is a simple reminderObserve the formation Fight until the battle's won but I... All I need is a simple reminderThere's no rule to say you'll cry alone Just find the strength to help you carry the load Reverse the frown and let the power surge But when alone you cannot resist the urgeFeel it, feel it, like the pain of dying Feel it, feel it, like the pain of dyingHold on face to face Damaged by the sad disgrace but I... All I need is a simple reminderTwisting the knife in vain End the grief hut who will gain but I...
