ArnoCorps

There's something out there waiting for us
And it ain't no manGo!Dillon, you son of a bitch!
What's the matter?
The CIA got you pushing too many pencils?
We're a rescue team, not assassins!What happened to you Dillon? What happened to you Dillon?
Stick around! Stick around!
What happened to you Dillon?
You used to be someone!
I could trust! Trust!
It's all bullshit, all of it
The cabinet minister, the whole business!
So you cooked up a story
And dropped the six of us in a meat grinder!(chorus)I'm here, kill me, come on, kill me, I'm here!
Come on, do it now! Run! Get to the chopper!(chorus)Hey Toten, give me a way out of this hole
Let's go!
That's right, I know you can feel it
It's the power of ArnoCorps around you
If it bleeds, we can kill it!(chorus x2)
