

Love Spill

Mista Roe

They say you live and then you learn
But you don't know how much this shit hurt
5 years and 4 reasons that I never should have said those 3 words
But it was a me and you thing, so I stuck it out
It wasn't about right or wrong, we can try til work it out
None of that was enough for ya, cause it was all about you you
No, had to let ya go It's not about you
Girl you coulda had it all if you woulda played ya cards right
It's not about me
I woulda gave it all for you wouldn't let it go without a fight
At one point it was so real
And now my heart is broken
Shoulda been about us
Gave it all that I had to give, but I'm still gone love love still
This is my love spill
All of that talking down when all of your folks around
Ya did it right in the open
Might as well had cut me wide open
Cause that's exactly how it feels when you give so much
And you don't same return oh
It took a while, but look at me now
Through all of that, I still gotta say thank ya
Cause it took us to show me
What love ain't and what love is
My eyes opened wide, feel like God sent a sign
You were a big mistake
I gave all of me, all of me (gave it all)
Wasted all them years away
At one point it was so real
But you broke my heart, didn't give a damn about it
Shoulda been about us, shoulda been about us no
This is my love spill
