

# You Left the Water Running

[Dan Penn](#)

You left the water running  
When you left me here behind  
You left the water running  
Running from these eyes of mine  
Running from these eyes of mine You left the water running  
When you left me here behind  
You left the water running  
Running from these eyes of mine  
Running from these eyes of mine You turned off all the life and love  
And left with another guy  
You turned off all of your love from me  
But you forgot to turn off the cry  
You forgot to turn off the cry You pull the shades a way down low  
You disconnect the telephone  
Oh baby, but these tears, a-running from my eyes  
You can't turn 'em off any, no  
No you can't turn 'em off any, no You left the water running  
When you left me here behind  
You left the water running  
Running from these eyes of mine  
Running from these eyes of mine You locked the door, left my heart outside  
And then you threw the key away, tell 'em Colla  
But you'll regret and you'll be upset  
When you get your water bills to pay  
When you get your water bills to pay You left the water running  
When you left me here behind  
You left the water running  
Running from these eyes of mine  
Running from these eyes of mine You left the water running  
When you left me here behind  
You left the water running  
Running from these eyes of mine
