

# Sayonara Love

## Dirty Loops

Sayonara love  
Sayonara love  
Sayonara love  
Sayonara loveBlinded by all the neon light  
A taste of a forbidden fruit  
That was I  
Racing through the Tokyo night  
It was over when she walked with a man in a Yakuza suit  
Taking love to new undiscovered heightsPRE-CHORUS  
Some things can't be touched occurs to me  
Now when I look back  
How foolishly  
But the glance of her pearly skin  
The look in her needy eyes  
Didn't leave me the chance to analyzeCHORUS  
You left your mark  
Girl of Shinjuku  
Sayonara goodbye my love  
Stuck on my heart like your dragon tattoo  
Sayonara goodbye my loveShe got up  
On my motorbike  
We escaped in the shades of dawn  
Soon we turned into one in the candlelight  
And she melted inside my hands  
Wish I'd felt there was something wrong  
Didn't know I would pay for her sweet delightPRE-CHORUSCHORUSSayonara love  
Sayonara love  
Sayonara love  
Sayonara loveHer name will stay on the tip of my tongue  
The girl I left in the land of the rising sun  
Forever haunting me down  
In my dreams  
To forget her is hard as it seems  
My geisha queenCHORUS
