

Turn It Up (Higher)

Fox Stevenson

Turn it up [3x]
HigherIf you feel like it's over
And nothing seems right no more
And you're in need of something new
Turn it up [3x]
HeyTurn it up [3x]
Higher
[2x]We've gone too far
And now we don't know where we are
But I'll blame it all on youWe move too slow
We need invigorating and I think I know
Just what to do
Turn it up [3x]
HeyIf you feel like it's over
And nothing seems right no more
And you're in need of something new
Turn it up [3x]
HigherAnd if it's too much to handle
And you think you've been here before
Well then there's only one thing to do
Turn it up [3x]
HigherSo let's progress
We'll be much better than the rest
And we can blaze a trail aheadWhat we Become
Will be determined by the things we will have done
And we can conquer them instead
Turn it up [3x]
HeyIf you feel like it's over
And nothing seems right no more
And you're in need of something new
Turn it up [3x]
HigherAnd if it's too much to handle
And you think you've been here before
Well then there's only one thing to do
Turn it up [3x]
HigherTurn it up [3x]
HigherYou have got to realize
I've been trying
Oh so hard

Turn it up [3x]
HigherI've lost my arms and legs and eyes and ears to you
My brain, my soul, my dreams, my life
What should I do?
Turn it up [3x]
HigherTurn it up [3x]
HigherIf you feel like it's over
And nothing seems right no more
And you're in need of something new
Turn it up [3x]
HigherAnd if it's too much to handle
And you think you've been here before
Well then there's only one thing to do
Turn it up [3x]
Higher
