# She's A Mess

## Blane Howard

when i wake up with her head laying on my chest
no make on and her hair all in a mess
so she covers up my eyes and says
i dont like you seeing me like this

and i said you dont know what that look right there does to me
those baby blues i swear they cut right through me
girl believe me when i say that the morning is my favorite time of day
cause i think you look best when you think youre a mess

when your hairs up in a ponytail
when your eyes tell me your tired as hell
and you are only wearing one earring
when youre standing there in my favorite shirt
got your glasses on cause your contacts hurt
and your feet keep getting stuck in them holey jeans
what part of this do you not get
cause i think you look best when you think youre a mess

she crawls out of bed and to the bathroom she goes stumblin
and through that door i can hear that shower runnin
and i wish that she would come back to bed
but there is still one thing she cant get through her head
and its that i think she looks best when she thinks shes a mess

when her hairs up in a ponytail
and when her eyes tell me shes tired as hell
and she is only wearing only one earring
when shes standing there in my favorite shirt
got her glasses on cause her contacts hurt
and her feet keep getting stuck in them holey jeans
what part of this does she not get
cause i think she looks best when she thinks shes a mess

and sometimes she'll try to show it off by wearing diamonds or pearls
but she dont need that dress or high heels shoes
cause the look that rocks my world

is when her hairs up in a ponytail
and when her eyes tell me shes tired as hell

and she is only wearing one earring
when shes standing there in my favorite shirt
got her glasses on cause her contacts hurt
and her feet getting stuck in them holey jeans

what part of this does she not get
i said what part of this does she not get
tell me what part of this she doesn't get
cause i think she looks best when she thinks shes a mess
oooh shes a mess
