

# Shadows On The Road

## Tech N9ne

Chorus [Krizz Kaliko]

I see shadows on the road again  
wonder if they comin for my soul  
I get trapped up in this mode I'm in  
and will I every grow old  
(and will i ever grow old)

Verse 1 [Tech N9ne]

I member, them high nights  
on x we find sites, to climb heights  
unheard to man we line white  
molly up it had to be non flight  
mix it with weed and wet its chronkite, that shits beyond hype  
spittin somethin we be trippin and seeing some shit  
its fuckin up the buzz of me and the clique  
so we hop up in the whip and flee with the quick  
but the shadow make us swerve and we on the strip  
did you see the shit? (ye i saw the shit)  
did ya'll see the shit? (ye we saw the shit)  
all agree that a shadow was crossin the street  
then immediately vanished we need a hit

Chorus [Krizz Kaliko]

I see shadows on the road again  
wonder if they comin for my soul

I get trapped up in this mode I'm in  
and will I ever grow old  
(and will i ever grow old)

Verse 2 [Tech N9ne]

Is it comin for me because of all the shit that i did in the past  
was bad to people  
mad and evil  
if your the A.O.D im sad to meet you  
angel of death when i quit doin ex  
because of seeing you every night on the stretch  
so ive been clean for three years  
and counting still im seeing shadows will they scheme for me  
to follow them into the pit of despair  
punishment for what i did in this lair  
what if evil spirits live in the road

to take the kindrid spirits crippled up souls  
i dont know how the spirit thing goes  
real or livin in my frontal lobe  
will i be livin life until im old  
or will i be takin by shadows on the road

Chorus [Krizz Kaliko]

I see shadows on the road again  
wonder if they comin for my soul  
I get trapped up in this mode I'm in  
and will I every grow old
