Light Up the Sky

Yellowcard

You're making a choice to live like this And all of the noise, I am silenceWe already know how it ends tonight

You run in the dark through a firefight

And I would explode just to save your life

Yeah, I would explodeLet me light up the sky

Light it up for you

Let me tell you why

I would die for you

Let me light up the skyl can't find a wall to pin this to

Theyre all coming down since I've found youI just wanna be where you are tonight

I run in the dark looking for some light

And how will we know if we just don't try?

We won't ever knowLet me light up the sky

Light it up for you

Let me tell you why

I would die for youLet me light up the sky

Light it up for you

Let me make this mine

I'll ignite for youLet me light up the sky just for you tonight

Let me help you fly cause you won't have time

To cover your eyes or get your disguise

They won't ask you why, theyll just watch you dieAnd it's still so hard to be who you are

So you play this part and the show goes on

But you've come this far with a broken heart

Yeah, you've come this far and you're brokenLet me light up the sky

Light it up for you

Let me tell you why

I would die for youLet me light up the sky

Light it up for you

Let me make this mine

I'll ignite for you

I'll ignite for youLet me light up the sky

Light it up for you

Let me tell you why

I would die for youAnd it's still so hard to be who you are

But you've come this far with a broken heart

And it's still so hard to be who you are

But you've come this far and youre brokenLight up the sky

Let me light up the sky
