

# Strength

## Zebrahead

Turn the TV off, turn me on  
Disbelief, confidence is gone  
You can take all this from me  
Stands my integrity now I'm so sick of mother fuckers  
Crooked wars that they wage  
Should I sit and count seconds  
Till we're all blown away? Sex, tyrants, violence  
On the news everyday  
Ignorance turned anger into hate  
Turn away Strength in diversity, unity and evolution  
Strength in diversity, unity and evolution  
Strength in diversity, unity and evolution  
Strength in diversity, unity and revolution Now you're gone, you're gone  
You're gone and it's forever  
Nothing is the same Right to right to wrong  
To wrong, we'll come together  
Time to make a change Turn the TV off, turn me on  
Disbelief, confidence is gone  
You can take all this from me  
Stands my integrity now And these wars that we wage  
Why an eye for an eye  
So I lock, load, engage  
Casualty, high supply We'll be missing all our friends  
Who die to get us by  
Courage facing fear  
Hate increase decline Strength in diversity, unity and evolution  
Strength in diversity, unity and evolution  
Strength in diversity, unity and evolution  
Strength in diversity, unity, revolution Now you're gone, you're gone  
You're gone and it's forever  
Nothing is the same Right to right to wrong  
To wrong, we'll come together  
Time to make a change Strength in diversity, unity and evolution  
Strength in diversity, unity and evolution  
Strength in diversity, unity and evolution  
Strength in diversity, unity, revolution Turn the TV off, turn me on  
Disbelief, confidence is gone  
If you take all of this from me  
Then all of you can come together Now you're gone, you're gone

You're gone and it's forever  
Nothing is the same  
Right to right to wrong  
To wrong, we'll come together  
Time to make a change  
Turn the TV off, turn me on  
Disbelief, confidence is gone  
You take all of this from me  
Stands my integrity
