Ampn'

Fu Manchu

Tried my hardest to search for the weakness
I planned for years but now I see so clear
I seen the line of a thousand points to light
Impossible you say and I know it's my timeAnd here's where we get up and go
Ampn' oughta know
The further we dig that whole
Ampn' oughta knowOughta know
Oughta know
Oughta know
Oughta knowSo wake up there friend, we've heard it all before
And on their way is what we're waiting forAnd here's where we get up and go
Ampn' oughta know
The further we dig that whole
Ampn' oughta knowOughta know
Oughta know
Oughta know
Oughta knowAt first, I thought this ride was so slow
Sounds an easy problem we know
Take down from where we started to glow
And we blow it on the way back homeOughta know
Oughta know
Oughta know
Oughta knowAmpn' oughta know
Ampn' oughta know
Ampn' oughta know
Ampn' oughta know
