

# Hide

## K's Choice

Watch me, I'm coming closer  
I am the mood you're in tonight  
Pretty poser, perfect Armageddon bride  
I am a circle, it feels right  
I am the one who swallows light  
Multiplying parasite, perfect features, perfect sight  
You thought you had it all  
Lost your leaves before the fall  
You should have killed me  
You should have tried  
Armageddon bride, hide, hide  
Watch me, bright but blurry  
Yet you knew I've always been  
In a hurry to contaminate what's clean  
Drawing whiskers in the sky for fun  
To cover up the sun  
As you sting me with your laughter  
Hide, hide, hide  
Hide, hide, hide  
You thought you had it all  
Lost your leaves before the fall  
You should have killed me  
You should have tried  
You better hide Armageddon  
You thought you had it all  
Lost your leaves before the fall  
Hide, hide, hide, hide
