

# Inside Me, Inside You (Guarav F. Lal Mix)

## Ultimate Fakebook

Time to fall in, Better listen up, March along and step to the drum, Gonna start the battle and light the fire that  
can see it through,

It's inside me and inside you, How much of this can we sit through you? Gonna kick their castle walls  
down, Gonna waste 'em with a landslide, Gonna fight until not even one of them is left alive, Inside me and inside  
you,

So follow me 'cause I'm sick too.

Oh all of those pretty faces will fall under our boots, Oh they'll all run for cover when they see what we can do,  
Oh when I look around I know we've got something to prove, Oh it's inside me and burning inside you. Let's  
infest the scene like a killer bee, Let's see how far this can go,

Make the word ATTRITION a big sticker on your radio, Inside me and inside you,

If our ears bleed then theirs can too.

It's inside me and inside you,

Believe it and it will come true, It's inside me and inside you, It can happen if we want it to.
