Drive

Side FX

on the road we got a ways to go
switching lanes I can't regain control
can't turn around I've got no place to go
so lets get lost, take off, grab aholdPre Chorus
chase the sun, ride the wind, race the rain
find something new, break the rules, erase the pain
let's go too fast don't look back find our lane
pedal down, look around, it's just us, again
I wanna drive till our hearts crash
Racing so fast hold on love
Up in the sky, In the moon light, right by your side, i'll drive all nightshift gears and slow it down, love
so far from where we were
there's nothing else around, us
now the past is just a blurPre ChorusChorus
Let's Pretend it Won't End (2x)
Let's Pretend (3)
It won't endChorus (2x)
