Freeform

Neve

Freeform stop the clock
Jump in and unwind
Airborne ride the wave
And lose your sense of timeIf you wait around here, you'll melt away
You've got to rise up or you'll fall
Freeform is the hideaway
To get us through it allLet it take you there
In the air
Without a care
It can't stop anymoreI'm gone won't you come with me
Jump in so all of us can see
Freeform it's calling me
And it can't stop anyoneI'm gone won't you come with me
Jump in so all of us can see
Freeform it's calling me
And it can't stop any oneEventide run and hide
Stare into the sun
I don't care if we go blind
'Cause it'll sure be funIn a liberating way, it's best to save
The freeform until we're done
A sick jump through a filtered lense
Sure would make us oneLet it take you there
In the air
Without a care
It can't stop anymoreI'm gone won't you come with me
Jump in so all of us can see
Freeform it's calling me
And it can't stop anyoneI'm gone won't you come with me
Jump in so all of us can see
Freeform it's calling me
And it can't stop any one
