See You Dead

Helmet

I'd like to see you in two pieces
You won't be walkin', barely breathin'
I'd like to see you at my door
We're together like beforeI could miss you more right now or I could slit your throat
Sometimes I get so down when you're not around
And I'd rather see you dead, see you deadTonight you're sleepin' by his side
I tried to see you but you let him decide
I'm a threat now, well are you scared?
It's just murder, 'least you know I careI could miss you more right now or I could slit your throat
Sometimes I get so down when you're not around
And I'd rather see you deadSometimes I get lonely and all I need is just to see you dead
See you dead, see you dead, see you dead
Dead, see you, see you, see you
Dead, dead, dead, dead, dead, dead, dead, deadSometimes I get so down when you're not around
I'd rather see you dead
Sometimes I get lonely and all I need is
Just to see you deadSometimes I get so down when you're not around
I'd rather see you dead
See you dead, dead, see you dead
Dead, see you dead
