A Walk In The Dark

Glenn Frey

It's long after midnight and the city sleeps
We're driving alone through the park
Somehow I just don't feel like going home
Let's take a walk in the darkDon't be afraid of what you can't see
Follow the road in your heart
Don't be afraid you'll be safe with me
Let's take a walk in the darkThere's not one soul in the park
Let's take a walk in the darkThis is the way I want to dance with you
Silhouettes beneath the moon and stars
This is the night I've always dreamed about
Let's take a walk in the darkI wrap my arms around you, your heart beats next to mine
I can feel you breathing in and out of time
Feel the gentle motion, the softness of your skin
Surrender to the rapture, deep withinThere's not one soul in the park
Let's take a walk in the dark
Follow the road in your heart
Let's take a walk in the darkA walk in the darkHe dreams of love
One night of love
