Borderline

Thin Lizzy

It's midnight in the big city
At the bar drinking all on my own
Just thinking about that girl and me
How something's going wrongMister tell me, what's my saving grace?
The back room boys were all telling me
I'm a borderline caseBack on the borderline one more time
Back on the borderline one more timeSeven beers and still sober
It's time to change to something stronger
I cannot take this scene no longer
She could have told me it's all overBack in my home town
The old place, it's still the same
But time can cast a spell over something
And you can't go back againBack on the borderline one more time
Back on the borderline one more timeMister, fill me another
Till I go crazy and it turn my mind around
Just pass that bottle one more time
And slowly drink it downJeanie can I tell you
The shame of my disgrace?
It's just love or rejection
For this borderline caseBack on the borderline one more time
Back on the borderline one more timeI'm on my bended knees crawling
I'm begging you darling
One more time
Back on the borderline one more timeI know the risk you take
Baby, please don't leave me to say
One more time
