

Birthday (Manitoba mix)

Junior Boys

You called and then you missed my birthday
You've gone and left me on my own
I'm home, don't stay, it's cool anyway
It's not so bad to stay at home Is it true that it's me?
You can say all the things you want to
But you don't need to leave if you take all this weight behind me
Let it go Now it's you
You forget all the things you want to
You're not here in the end
You have nothing left to say I guess, it passed me on my birthday
You slept right through the year I've grown
And now, I can't remember anyway
And I need to wash my hands real slow Is it true that it's me?
You can say all the things you want to
But you don't need to leave if you take all this weight behind me
And let it go Now it's you
You forget all the things you want to
And you're not here in the end
So there's nothing left to say You called and then you missed my birthday
I know, we'd do it all again
[Incomprehensible] anyway
This time I close my eyes and really wish you'd come Is it true that it's me?
You can say all the things you want to
But you don't need to leave if you take all this weight behind me
And let it go Now it's you
You forget all the things you want to
And you're not here in the end
So there's nothing left to say
