

# Elm Station

## Echo Orbiter

Roll tires roll, the leaves kick up  
Past broke down old Plymouth green  
Worms leave a trail across concrete  
Dawn of a dream second home

Single secret touched and reversed  
Doom the rain  
Confident arms surround our search for purpose and danger  
25 years on came to play

Station remains frozen in years  
Never to melt to sweeping business  
Chewed gum on wall hurls me to tears  
June sunset utters quiet
