

# Lions

## Tones on Tail

Lions always hit the heights  
'Cause to kill it's always been an easy way out  
Lions always hit the heights  
'Cause to kill it's always been an easy way out After a couple of drinks I think straight  
Tears of joy sort the little girl out  
Something you always wanted And curvey lorraine always leads the way,  
Admitting her love, it drips and drips  
Something you always wanted Gini, gini, look at me, gini  
I let the stare that tries to cripple you  
Slide down my back  
Gini, gini, speak to me, gini,  
I let the words they shove in front of you  
Crawl right back Lions always hit the heights  
'Cause to kill it's always been an easy way out  
Lions always hit the heights  
'Cause to kill it's always been an easy way out 'Cause we take this world by storm  
We don't look back  
Let the stare that tries to cripple you  
Slide down my back 'Cause the wheels keep us far apart  
We can't look back  
Let the words they shove in front of you  
Crawl right back Lions always hit the heights  
'Cause to kill it's always been an easy way out
