

Wrap Your Arms Around Me

[Gareth Dunlop](#)

We're all fragile underneath
This coat of armour isn't thick or deep
When we break it's hard to hide
The way we hurt inside
When I come undone at the seams
My heart is on the floor for all to see
Do that thing that I need
Wrap your arms around me x 3
We do our best to smile
Fight the tears trying to creep from our eyes
When a smile just won't disguise
We just crumble inside
So when I come undone at the seams
My heart is on the floor for all to see
Do that thing that I need
Wrap your arms around me x 3
So when I come undone at the seams
And my heart is on the floor for all to see
Do that thing that I need
Wrap your arms around me x 6
