

Engage

Chipzel

So proud, take a bow it's coming 'round

I think I'll give you a taste

You won't forget the day we met

And what was said

So now the time has come

To watch your back don't stand alone

And I'll say

Just one last thing, don't turn away

Why can't you listen to me?

Find it out

The price is out on your head

And I'm willing to pay

Your time ran out

Your lights go down in red

Afraid to take a stand

It's your last chance to make amends

Now you'll pay for your mistakes

It's your last day

Why can't you listen to me?

You'll find it out

The price is out on your head

And I'm willing to pay

Your time ran out

Your lights go down in red

Listen to me

Find it out

The price is out on your head

And I'm willing to pay

Your time ran out

Your lights go down and now you'll see

I don't give a fuck

I don't give a fuck

Listen to me, lesson to you

Listen to me, lesson to you

Listen to me, lesson to you

Listen to me break

Why can't you listen to me?

You'll find it out

The price is out on your head

And I'm willing to pay
Your time ran out
Your lights go down in red
Listen to me
Find it out
The price is out on your head
And I'm willing to pay
Your time ran out
Your lights go down and now you'll see
So proud, take a bow it's coming 'round
You'll find out
Listen to me, lesson to you
Listen to me, lesson to you
Listen to me, lesson to you
Listen to me, lesson to you
