

Summoning of the Ancient Gods

Behemoth

mystic voices lead me to suicide
I will unite my flesh with him tonight
blasphemous son in my veins
into the magic circlelord of dark winds
obscure my soul
burn my eyes
make me see illusionsburning in black flames forever
the child of my morbid perversion
is screaming glory of darkness
sing the occultic psalmwith the book of eternal oath
I created the face of the goat
unholy psalm to lead the souls
blood means the pact with my lord
