Drown in It

[Lefty](#)

Tell him what you know
Thought you had me, but I let it go
And now I'm gonna take down the whole thing
Everything is going down with meThought you told him everything
Left out a little bit about yourself
And I found out from your best friend
I think it's time that I filled him inAnd now I'm gonna take down the whole thing
Everything is going down with me
Everything is going down with meYou know too much, keep it to yourself
So much at stake, but you don't give a damn
And now it's coming back on youYou keep on pushing, baby, can't you see?
Always try, but your never gonna get to me
I'll make sure this timeTell him what you know
I thought you had me, but you let me go
Can't take it anymore
'Cause I got so much I've been saving upAnd now I'm gonna take down the whole thing
I'm gonna take down the whole thing
Everyone's gonna drown in it
