Off The Road

Carpenters

When the day is done
And the sun is sinking low
When you see the light
And you've been most everywhere
You go, you goWhen the traffic's slow
Break lines lined up for miles and miles
And you know the end is not in sight
You can never take your eyes
Off the road, off the roadWhen you're all alone
And you've been driving through the night
And you know the end is not in sight
You can never take your eyes
Off the road, off the road
